

CEWELD SPA FeAl5

TYPE	Cored wire for the thermal spray process
ANWENDUNGEN	Rough surfaces against sliding and or applications that require a smooth finish after machining.
EIGENSCHAFTEN	Aluminium alloyed tubular wire for electric arc spray on a Fe-Al basis with high bond strength.
KLASSIFIKATION	
GEEIGNET FÜR	Coating walking surfaces against sliding, stairs, traction wheels and rollers, buffer layers etc.
ZULASSUNGEN	
SCHWEISSPOSITIONEN	
(%)	
MECHANISCHE GÜTEWERTE	
RÜCKTROCKNUNG	Not required
GAS ACC. EN ISO 14175
