CEWELD SA 309LMo strip

certilas® THE FILLER METAL SPECIALIST

TYPE	Solid stainless steel welding strip
TOEPASSINGEN	Boilers, chemical industry components, offshore industry
EIGENSCHAPPEN	SA 309LMo strip is stainless steel strip for cladding overlay applications. Latest generation clean melting quality guarantees optimum metallurgical quality and attractive weld appeal. Combined with our high basic electro slag flux FL 830 ESHC excellent results are obtained in both deposition rate as minimum dilution rate due to the higher slag temperature compare to other electro slag fluxes. Cladding on low alloyed steels in case a 18/8/2 (AISI 316) CrNiMo layer is required in the first layer.

CLASSIFICATIE

AWS	A 5.9: EQ309LMo
EN ISO	14343-A: B 23 12 2 L
W.Nr.	1.4459
